Additional Comments:

The previous core curriculum course MUS 313, Fundamentals of Music, was replaced by the courses MUS 303C, Fundamentals of Music: Classroom Instruments, MUS 303D, Fundamentals of Music: Guitar, and MUS 303E, Fundamentals of Music: Piano. The three courses are not approved because their main purpose is to increase a student's skill and confidence in the activity of music creation. While the courses include components of music appreciation they do not fulfill the purpose of the Language, Philosophy & Culture Foundation Component Area (FCA) and its larger general education purpose of understanding the human condition across cultures. – The course SCI 365, Physics by Inquiry, was not approved because it is an upper-division course and its topic and techniques appear too advanced for a general education course. -- The course BIO 309F, Heredity, Evolution, & Society was not approved because it was replaced by BIO 301G, Genetics in the 21st Century, which is of same content and structure. –
