PROPOSED CHANGES TO THE BBA FINANCE DEGREE PROGRAM IN THE DEGREES AND PROGRAMS SECTION OF THE MCCOMBS SCHOOL OF BUSINESS CHAPTER IN THE UNDERGRADUATE CATALOG 2016-2018

Dean Thomas W. Gilligan, in the Red McCombs School of Business has filed with the secretary of the Faculty Council the following changes to the *Undergraduate Catalog*, 2016-2018. On February 20, 2015, the Undergraduate Program Committee approved the proposal, and the faculty representatives from all of the school's departments and programs and the dean approved it on April 16, 2015. The secretary has classified this proposal as legislation of *general* interest to more than one college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the changes on October 8, 2015, and forwarded them to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with UT System with formal notification to the Texas Higher Education Coordinating Board.

To be counted, a protest must be received in the Office of the General Faculty by November 2, 2015.

f. Will this proposal change the number of hours required for degree completion? If yes, explain: Yes, for the newly-added 7th track only, this will increase the number of hours required to 121, from 120. Students can choose to pursue any of the tracks; the finance major with accounting minor is one option.

For the finance degree:

- 1. Fifty hours of specified non-business coursework are required.
- Ten additional hours are necessary to satisfy the BBA Degree requirement of sixty hours nonbusiness coursework; these are ten hours of non-business electives.
- 3. Fifty-five hours of specified business coursework are required.
- 4. Five additional hours needed to make a 120-hour degree; these are free electives. For the track of Finance with Required accounting minor, these five hours are taken up by the additional Accounting elective hours needed; however the minor requires six hours of accounting to meet the fifteen hour minor requirement, which results in one additional hour needed for this track.
- This hour cannot be taken from the ten hours of unspecified non-business hours, as sixty hours non-business is required for the BBA degree, and needed for accreditation compliance.

Further detailed by this chart:

Course	Other Finance tracks	15 hour ACC Minor	FIN major + ACC Minor track
BA 324	Required for FIN major; all tracks	BA 324	Required; simultaneously fulfills minor

ACC 312	Required for FIN major; all tracks	ACC 312	Required; simultaneously fulfills minor

Finance course	Required for FIN major; all tracks	n/a	Required for FIN major; all tracks
Finance course	Required for FIN major; all tracks	n/a	Required for FIN major; all tracks
Finance course	Required for FIN major; all tracks	n/a	Required for FIN major; all tracks
Five hours to total 120	Free electives	six hours ACC electives	Accounting electives required for minor (six hours total needed for minor)
			One more hour of accounting elective needed to complete fifteen hour minor; this is the additional hour to make 121 total for this track

This new track is necessary due to the minor mandate that at least nine hours for the minor must include coursework not used to satisfy the requirements of the student's major.

Finance

Finance is the study of resource allocation—the process, markets, institutions, and instruments that provide for the transfer of money and wealth. The finance degree program offers students an opportunity to study the finance function in the business firm, the financial services firm, and the financial system.

The finance major presents students with the theoretical framework and analytical tools and techniques to handle a variety of finance and business functions. Students may choose one of seven tracks: corporate finance and investment banking, energy finance, investment management and banking, [financial markets/banking,] quantitative finance, finance with required accounting minor, or real estate; students who do not wish to specialize may choose the general finance track.

Corporate finance and investment banking courses are designed to prepare students for careers as associates of corporate treasury departments, as corporate financial analysts, and as management consultants. Energy finance courses are designed to prepare students for positions in project financing, valuation, and risk management in the energy sector. Investment management <u>and banking</u>-courses are designed to give students a background suitable for starting positions as financial analysts with investment funds, investment banks, [and] <u>commercial</u> banks, and other financial institutions. [Financial markets/banking courses are designed to prepare students for a variety of financial institution—related careers, such as lending officer and financial analyst.] Quantitative

finance courses are designed to prepare students for financial analyst positions in research departments of financial institutions and for graduate study in finance. Real estate courses are designed to give students a broad background in valuing and managing real estate; the track is intended to prepare students for positions in real estate commercial brokerage and appraisal, mortgage banking, loan underwriting, real estate development and investment, and property management.

Finance majors may specialize further by completing the Financial Analyst Program (FAP). This one year program allows competitively selected business students to work closely with finance faculty members and industry professionals to develop their skills and experience as analysts. The program may be combined with any of the finance options. More information about FAP is available in the Department of Finance office and at http://www.mccombs.utexas.edu/Centers/AIM/Financial-Analyst-Program.aspx.

The requirements of this program are:
