DOCUMENTS OF THE GENERAL FACULTY

PROPOSED CHANGES TO THE FINANCE DEGREE PROGRAM IN THE MCCOMBS SCHOOL OF BUSINESS CHAPTER IN THE *UNDERGRADUATE CATALOG, 2018-2020*

Dean Jay Hartzell in the McCombs School of Business has filed with the Secretary of the Faculty Council the following proposal to change the Finance degree program in the McCombs School of Business chapter in the *Undergraduate Catalog, 2018-2020*. On February 6, 2017, the Undergraduate Program Committee approved the proposal, and the faculty at McCombs School of Business approved it on April 26, 2017. On April 26, 2017, the Dean approved the proposal. The Secretary has classified this proposal as legislation of exclusive interest to a single college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the major on September 26, 2017, and forwarded it to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with the Provost on behalf of the President.

If no objection is filed with the Office of the General Faculty by the date specified below, the legislation will be held to have been approved by the Faculty Council. If an objection is filed within the prescribed period, the legislation will be presented to the Faculty Council at its next meeting. The objection, with reasons, must be signed by a member of the Faculty Council.

To be counted, a protest must be received in the Office of the General Faculty by October 12, 2017.

Alan W. Friedman, Secretary of the General Faculty and Faculty Council
The University of Texas at Austin
Arthur J. Thaman and Wilhelmina Doré Thaman Professor of English and Comparative Literature

Rationale: Change in AACSB accrediting requirements no longer mandate sixty hours non-business coursework for the BBA degree; this flexibility allows us to adjust the electives in the track and reduce degree requirements to 120 hours.

Finance

Finance is the study of resource allocation—the process, markets, institutions, and instruments that provide for the transfer of money and wealth. The finance degree program offers students an opportunity to study the finance function in the business firm, the financial services firm, and the financial system.

The finance major presents students with the theoretical framework and analytical tools and techniques to handle a variety of finance and business functions. Students may choose one of seven tracks: corporate finance and investment banking, energy finance, investment management and banking, quantitative finance, finance with required accounting minor, or real estate; students who do not wish to specialize may choose the general finance track.

Corporate finance and investment banking courses are designed to prepare students for careers as associates of corporate treasury departments, as corporate financial analysts, and as management consultants. Energy finance courses are designed to prepare students for positions in project financing, valuation, and risk management in the energy sector. Investment management and banking courses are designed to give students a background suitable for starting positions as financial analysts with investment funds, investment banks, commercial banks, and other financial institutions. Quantitative finance courses are designed to prepare students for financial analyst positions in research departments of financial institutions and for graduate study in finance. Real estate courses are designed to give students a broad background in valuing and managing real estate; the track is intended to prepare students for positions in real estate commercial brokerage and appraisal, mortgage banking, loan underwriting, real estate development and investment, and property management. The finance track with a required accounting minor is appropriate for students who wish to enhance their understanding of auditing/financial reporting, managerial accounting/control and taxation, and students whose careers will interact with the Controller function of their organization.

Finance majors may specialize further by completing the Financial Analyst Program (FAP). This one year program allows competitively selected business students to work closely with finance faculty members and industry professionals to develop their skills and experience as analysts. The program may be combined with any of the finance options. More information about FAP is available in the Department of Finance office and at their website.

The requirements of this program are:

1. The Core Curriculum and the BBA Degree Requirements
2. Accounting 326 (with the exception of the finance track with required accounting minor), Finance 367, and 370 (may fulfill writing and independent inquiry flags)
